Purpose

The Community Facilities Pricing Policy ('the Policy') provides an overarching framework containing principles that guide the pricing of Council owned or managed community facilities and ensures a consistent and transparent approach to the pricing of such facilities. Objectives

The objectives of the Policy are:

1. To establish principles for the determination of fees and charges.
2. To determine subsidy levels for Leased, Licensed and seasonal use of Council owned Community facilities.
3. To ensure accountability to the community through an equitable and transparent pricing structure.

Policy Principles

The principles set out below will be used by Council to determine the fees to be charged for the use of the Council facilities to which this Policy applies.

Reasonable Contribution / Commensurable

Fees will be set at levels that reflect a reasonable contribution toward the cost to Council of maintaining a facility and set at a level that properly managed user groups can afford.

Transparent

Fees will be documented in a manner that users and the community can understand e.g. how the fees have been calculated and why the level of fee imposed has been charged.

Fair and Equitable

Users of Council facilities will be charged usage fees that are consistent with the usage fees charged to other users of the same or similar facilities where those users are in similar circumstances

Different Rates & Charges for Different Users & Standards of Facility

A scale of different charges will apply to commercial, government, community service not for profit, community and private users.

Promoting Participation

Fees charged will reflect Council's commitment to supporting and promoting the participation of population groups that are usually under-represented in civic and community life.

Annual Increase

All pricing within this Policy will increase annually to ensure that users continue to make a reasonable contribution to the maintenance and renewal of Council Community Facilities.
