Resident

*"There are numerous studies which link glyphosate (Roundup's active ingredient) to increased risk of non-Hodgkin lymphoma (NHL) and other cancers, with mechanisms including DNA damage, oxidative stress, and hormonal disruption, when will the council take responsibility to inform us when and where this harmful chemical is sprayed? We don't want our children and pets coming in contact with this."*

Acting Director, Assets and Leisure

*"Council uses glyphosate in parks and reserves in accordance with the guidelines and requirements of Worksafe Victoria and the Australian Pesticides and Veterinary Medicines Authority (APVMA). Glyphosate only becomes active once inside the cell of a plant where it works by disrupting photosynthesis. Once the glyphosate comes into contact with soil it breaks down to become chemically inactive. Council does not use products containing glyphosate near schools, kindergartens, BBQ areas and playgrounds."*

Resident

*"What influence, control or limits are the council able to implement with the development on 71-95 Belmont East (The former Croydon South Primary School)? For example are you placing limits on number of dwellings, number of levels of each dwelling, Road structure or design?"*

Director, Strategy and Development

*"The Victorian Government rezoned 71-95 Belmont East Road, formally the Croydon South Primary School in 2024 from a Public Use Zone to a Neighbourhood Residential Zone. Council successfully advocated for the implementation of a Neighbourhood Residential Zone as opposed to a General Residential Zone. This Neighbourhood Residential Zone incorporates planning controls featuring reduced heights and lower densities resulting in new development that is more keeping with the area. Council will aim to ensure that any future development complies with the requirements of the Neighbourhood Residential Zone in terms of road locations, dwelling numbers and building levels."*

Tim

*“Dear Council public servants, what is the total amount of Maroondah residents that have lodged an application for a payment plan this calendar year and how does the recent council rate rise help these resident's burden of paying council rates?”*

Acting Chief Financial Officer

*“From December 2024 to November 2025, a total of 1,385 assessments have lodged applications for payment plans.*

*Since the recent Council rate increase applied on July 1<sup>st</sup> 2025, the overall number of residents seeking assistance has not changed significantly, with more residents choosing to manage their payments through standard payment plans rather than applying for financial hardship assistance.”*
